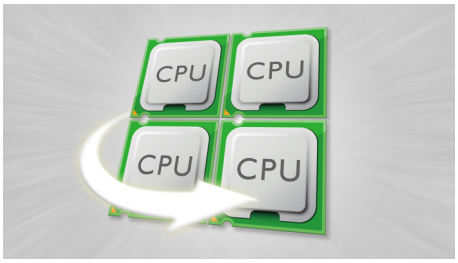
Highlights

Ergonomic and colorful design

Your Philips mobile phone comes with the ergonomic design that makes it more comfortable to hold in. The stunning colors matching design catches your eyes at first sight. Wherever you go, you are carrying a signature look and style of extraordinary sensations.

1.3GHz quad core processor



Your Philips mobile phone now zooms along like never before, thanks to the powerful 1.3GHz quad core processor. This powerhouse keeps up easily with your multitasking demands at a much faster speed. Load web pages with lightning speed, watch uninterrupted videos plus get animations fast- and we mean fast! Gaming is seamless and immersive with exceptional picture quality.

Dual SIM

Organize your life better and keep your contacts separate by using 2 different phone numbers. With Dual SIM, you don't need to carry 2 phones around.

5" FWVGA TFT touch screen

Want to turn web browsing on your mobile phone into an enjoyable experience instead of a cumbersome chore? Now you can do so on your Philips smartphone, thanks to its awesome and all-encompassing 5" FWVGA display. Whether you are viewing photos or files, surfing the internet or playing your favorite games, the expansive touch screen makes the activity a pleasure with minimal screen transitions and less scrolling.

8GB ROM, 1GB RAM

Your Philips mobile phone comes with a 8GB built-in memory, so you can pack more into your life on the go. With the large storage available for your ever expanding needs, there is more room for your favorite apps, photos and important documents. The 1GB ROM can let you enjoy seamless performance during playing games and viewing news in spare time.

5 megapixel camera with flash

Indulge in trigger-happy moments with clear and razor-sharp images, thanks to your phone's 5 megapixel camera. The built-in flash means that you can snap fantastic shots, even in dim lighting conditions.
