Highlights

Thin and lightweight design

Thin and light weight design makes this your perfect portable companion for work or play.

Full HD display

7" Full HD display for vibrant colors, crisp images and text

Octa-core processor

OctaCore

Your Philips tablet is even more powerful with its Octa-core processor. This powerhouse keeps up easily with your multitasking demands. Seamlessly load web pages and enjoy uninterrupted videos. Gaming is immersive with exceptional picture quality.

Expandable storage

In addition to the included storage the Philips tablet offers flexibility to quickly expand your storage and easily swap out memory with a Micro SD card.

Android Operating System

android

Powered by Android, your Philips mobile now comes with a fully customizable mobile platform that is open to a wide range of smart applications and functions. Find your pocket PC, game console, and telephone all rolled conveniently into one.

Voice Calling

Your tablet can do more; you can even use it to talk over 4G LTE networks.

Fast 4G LTE data

LTE

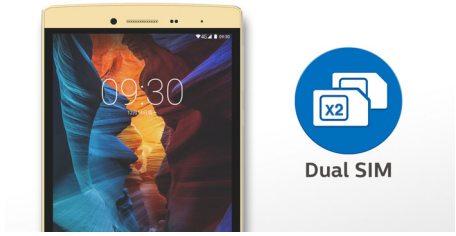
4G LTE

Integrated 4G LTE supports fast download speeds no matter the location of the 4G network.

Front and rear cameras

Bring yourself to the forefront of fun shots with the front and rear cameras in your Philips tablet. Besides allowing you to take self-portraits, the front-facing camera also means that you can engage in face-to-face video calls with friends or colleagues. The rear camera allows you to capture life's fleeting moments in crystal clear quality and send them to friends and family. A built-in flash means that you can take great photos even in dim light so you can capture that perfect moment, night or day.

Dual-SIM



Organize your life better and keep your contacts separate by using 2 different phone numbers. With Dual Sim, you don't need to carry 2 phones around.
