PHILIPS
AVENT

Highlights

Stable, secure & adaptive FHSS

Unique handset pairing for private and secure connection. Combined with the new adaptive FHSS (Frequency Hopping Spread Spectrum) technology for minimal interference and stable connection. Adaptive FHSS technology increases connection stability through continuous and automatic selection of the best quality frequency channels to transmit video data.

2.7" color screen

See your baby, day and night, with crystal clear infra-red night vision that automatically switches on in the dark. Enjoy your baby sleeping with the high resolution extra large 2.7" color screen.

Perfect clear sound video

Hear every tiny giggle, gurgle, and hic-up with perfect clarity. Not only see but also hear your baby anytime with high quality, crystal clear sound.

ECO mode

Switch on the ECO mode to reduce power consumption during quiet times in the baby room while still knowing you are connected to your baby via the unique link indication. The ECO mode switches off the audio/video transmissions and the units only connect when the baby makes a sound.

Always connected

Always know when your monitor is in range and connected. The parent unit will alert you when your monitor is out of range or when the power is low, helping you make sure that you are always connected to your baby.

300m Range

Indoor range up to 50 meters*, Outdoor range up to 300 meters*.

Operating time up to 10 hours

The convenient rechargeable parent unit will give you the freedom of cordless monitoring for up to 10 hours before re-charging is required.

Talk back

Sometimes all your baby needs is the soothing sound of your voice. With one click of this essential feature you can connect with your baby from anywhere around the home.

Lullabies

There's nothing like a gentle lullaby to calm a restless baby. From any room in the house you can select one of 5 relaxing tunes and switch, helping your baby to drift effortlessly to sleep in no time.
