Durable LED accent lighting with a bright beam

Create your desired ambiance with dimmable LED

Philips LED reflectors provide a dimmable, warm white light, an exceptionally long life, and significant energy savings. With a modern and elegant design, this bulb is the perfect replacement for reflectors with large (E27) screw caps.

Benefits

Warm sparkling light
- True incandescent-like warm white light (2700 K)

Easy to use
- Dimmable
- Instant light when switched on

Create a warm atmosphere
- High color rendering (CRI > 80) for vivid colors

Innovative design
- Our perfectly clear LED light bulb

Sustainable choice
- Very low energy consumption; saving at least 80%

PHILIPS

Features

Warm white light (2700K)

Light can have different color temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more cozy light, while those with a higher Kelvin value produce a cool, more energizing light.

Dimmable

Designed to provide quality dimming to create the right ambiance for any activity, from relaxed to active atmospheres.

High color rendering (CRI>80)

The color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colors truly and naturally.

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Our perfectly clear LED bulb

Philips LED technology is continously developing and creating even better replacements for traditional light sources. This innovative LED bulb is the perfect replacement for clear incandescent light bulbs, while far surpassing them in terms of energy efficiency.

Very low energy consumption

By replacing traditional light bulbs with a Philips LED alternative, you will gain immediate, significant energy savings while contributing to a sustainable planet.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Cap/fitting	E26 E27
Dimmable	Yes
Shape	Reflector
Type	R20
Voltage	110 - 130 V

Durability

Average life (at 2.7 hrs/day)	25 year(s)
Lifetime of lamp	25000 hour(s)
Lumen maintenance factor	0.7

Light characteristics

Color temperature	2700 K
Light effect/finish	Warm White
Light output	530 lumen
Color rendering index (CRI)	80
Color	Warm White
Warm-up time to 60% light	Instant full light

Power consumption

Wattage	8 W
Wattage equivalent	50 W
Power consumption per 1000h	8 kW·h
Energy efficiency label	A+

Rated values

Rated luminous flux	530 lumen
Rated lifetime	25000 hour(s)
