Highlights

Durable and glossy outer shell

Durable, glossy and fingerprint-resistant outer shell

Beautiful from every angle

Elegant and stylish appearance from every angle

Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

ECO+

Zero power emission when ECO+ mode is activated

Multiple privacy settings

Value your privacy and quiet at home? Black List restricts specific numbers or those starting with certain digits, protecting you from receiving unwanted calls. You can choose to block up to 4 sets of numbers. Each set can consist of 1 to 24 digits. If the number of an incoming call starts with any of these number sets or are the exact numbers that you chose to blocked, your phone will not ring. With Call Barring, you can avoid the surprise of expensive phone bills by blocking calls to specific numbers starting with certain digits (for example, pay per call numbers).

100-name phone book

Always have the phone numbers of your loved ones available: Save up to 100 favorite contacts in your phonebook.

4.6cm (1.8") display

Easy to read 4.6 cm (1.8") display with white backlight

Hassle-free charging

Charge handset either way around

Smart cable management

The smart cable management system cleverly hides the wires from sight. Intelligently designed concealed sockets and an internal cable guide ensure everything is clutter free and neatly tucked away.

Smooth and calibrated keypad

Calibrated keypad for smooth precision clicks

Superb sound quality

Advanced sound testing and tuning for superb voice quality
