# Highlights

### Comapct design

Enables you to boil the amount of water you need in a quicker way, whilst occupying less space from your countertop.

### Spring lid

Spring opening lid opens effortlessly at the touch of a button, also avoiding steam contact

### Pilot light

Elegant light incorporated in the on/off switch indicates when the kettle is on.

### Water level indicator

The water level is easy to read underneath the handle

### Cordless 360° pirouette base

Cordless 360° pirouette base for easy lifting and placing.

### Power cord winder

The cord can be wrapped around the base, so that the kettle is easy to place in your kitchen.

### Micro-mesh filter

The removable micro-mesh filter on the spout restrains all scale particles with size > 200 micron and ensures that the water you put into your cup is clean.

### Multiple safety system

The kettle shuts off automatically when the water is ready, when it is lifted from the base or when there is too little water in it in order to avoid boil-dry.

### Food contact safe material

This kettle is made of food contact safe stainless steel for your clean cup of water.

### Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.
