

Name: **Digital Audio Splitter 2 Toslink Ports**
Manufacturer: **Techly**

Digital optical splitter 2-way audio, suitable for distributing the audio signal from a digital optical input to two outputs, using TOSLink cables (fiber optic). The fiber optic cables that connect both sides of the unit can reach a distance of 5m allowing a reliable audio signal transmission, without any quality loss. The splitter is compact and easy to install, it is recommended for both the domestic and professional.

Features
• Supports standard of digital audio transmission S / PDIF
• Supports uncompressed audio 2 channel LPCM (Linear Pulse Code Modulation)
• Supports compressed 2-channel audio and DTS
• Transmission free of electromagnetic interference
• Easy to install and use

Technical specifications
• Front door: 1 Toslink (optical fiber)
• Output Port: 2x Toslink (optical fiber)
• Power supply: 5V 1A

Dimensions
• Width: 50 mm
• Depth: 41 mm

• Height: 21 mm

Certifications

• EC
• WEEE

Package Contents

• Digital Audio Splitter
• 5V 1A
• User manual
