Highlights

Keep warm function

Keep warm function allows you to maintain the water in your kettle at a certain temperature

Multi safety system

Multiple safety system against boil-dry, with auto switch off when ready or when lifted from the base.

Food grade metal parts

Food grade stainless steel metal parts (SUS304, complying with GB9684 standard) to guarantee a safe and clean cup of water.

Stainless steel spout

Spill-proof spout is made of food grade stainless steel and efficiently prevents water spilling out, ensuring safe boiling and clean cup of water at all times

Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.

Pilot light

Elegant light incorporated in the on/off switch indicates when the kettle is on.

Water level indicator

The water level is easy to read underneath the handle

Spring lid with release button

Spring lid with release button for easy filling and cleaning, also avoiding steam contact.

Easy lid and spout filling

The kettle can be filled via the spout or by opening the lid.

Cordless 360° pirouette base

Cordless 360° pirouette base for easy lifting and placing.
