Highlights

18 drinks at your fingertips

Your perfect coffee is now at your fingertips. Download the Saeco Avanti App on your tablet or smartphone and set up a secure connection via Bluetooth 4.0 with the GranBaristo Avanti, the first connected, super-automatic espresso machine. Choose from 18 irresistible drinks and brew it directly from your smart device, or use the OneTouch buttons on the machine itself.

Ultimate customization

The Saeco Avanti App offers an abundance of indulgent options that will guide you towards a perfect result, customized exactly to your taste. You can easily personalize and memorize strength, length, temperature and taste for each drink. Explore, experiment and dream up any number of delectable drinks from the comfort of your chair, and store an endless number of drinks in your App.

Treat guests their own choice

Entertaining guests is now even easier. For coffee orders pass around your tablet and let each of them customize their coffee, cappuccino, latte macchiato or others and add it in the queue. The Saeco Avanti App will be your personal butler, brewing them one after the other so you can guarantee everyone gets their personal choice.

Step-by-step tutorials via App

Maintaining your super-automatic espresso machine has never been easier. The Saeco Avanti App will take you step-by-step through everything that's necessary to keep your machine clean and your coffee tasting perfect. The video will stop after each step and you can re-watch each step as many times as you want.

Unique variety of drinks

The Saeco GranBaristo offers an unparalleled variety of drinks to suit any occasion thanks to the patented VariPresso brewing chamber. The secret is in the adjustable brewing pressure; set it on high for an intense, rich espresso, or lower the pressure for a long, classic coffee.

One-touch Cappuccino and Latte

Every coffee you prepare will be topped with a silky, milk layer that beckons the taste buds. The milk carafe froths the milk twice, then pours a splash free creamy layer into your cup at just the right temperature. The carafe can also be stored conveniently in the fridge and it is incredibly hygienic.
