Robot Vacuum Cleaner Series Accessories Package

Compatible Model

Imou RV1 Series Robots

What's in the box

Main Brush ×1

Side Brush ×4

HEPA Filter ×4

Dust Bag ×6

Washable Cloth ×2

Introductions

Main Brush - Durable and effective at absorbing dust, hair and other debris. It is designed with dense bristle and rubber blades, making it ideal for cleaning different surfaces, including wood floors, carpets and tiles.

Side Brush - Sweep dirt from corners and edges and funnel debris towards the main brush, ensuring a thorough clean in hard-to-reach areas.

HEPA Filter - Washable and reusable. It can effectively trap dust, bacteria and allergens to improve indoor air quality while vacuuming.

Dust Bag - Large capacity and easy to install. No need to frequently empty the robot's dust box.

Washable Cloth - Efficiently clean dirt on the ground while being easy to clean and reuse.

Maintenance Checklist

Item	Maintenance Frequency	Replacement Frequency
Main Brush	After each cleaning	After 240 hours of usage
Side Brush	When necessary	After 150 hours of usage
HEPA Filter	Once per month	After 150 hours of usage
Washable Cloth	After each cleaning	After 180 hours of usage

** Refer to the product user manual for cleaning and replacement instructions.*
