Product Description

Whether it’s the classroom, conference room or family room, the iPad has changed how people find and share information. The BlackBelt 2nd Degree Rugged Case with Screen Protector is the ultimate protection, with a design that passes military-grade drop testing. A thin screen protector is simple to install, and because it’s rigid it eliminates those annoying air bubbles, and the textured rubber prevents the case from sliding off a desk or table. And to prevent drops in the first place, the case features a hand strap that makes holding your iPad easier. It also has a built-in, two-position stand that lets you work, or play, hands-free.

Features

- Strong, cushioned rubber layer over a polycarbonate X-frame meets military-grade MIL-STD-810G testing protocols for drop protection
- Built-in hand strap reduces chances of accidental drops
- Multi-position stand for optimized viewing
- Thin, rigid screen protector is easy to install and eliminates air bubbles
- Rubberized texture makes it easy to grip and prevents it from sliding off a desktop
- Unobstructed port openings for quick access to buttons, cameras and ports
- Raised bezel prevents scratches and damage to screen if tablet gets dropped
