

Philips Avance Collection
Rice cooker

Premium inner pot series
4L
860W

HD3095/50

Delicious 'wood fire' aroma for maximum enjoyment

6mm thick black crystal pot for great tasting rice

The new Philips smart rice cooker with unique 6 mm black crystal pot and wrap-around double core heating plate brings out the unique taste and texture of every grain of rice. With its easily detachable lid, cleaning has never been this easy

Black crystal pot for great tasting rice
- Black crystal pot conducts and retains heat extremely well
- The thick-based, thin-walled design conducts heat evenly
- Energy-cohesive ring retains heat to enhance thermal cycling
- Hi-tech ceramic coating for longer service life

Double core heating plate for fluffier rice
- Innovative wrap-around heating plate expands heat area
- Double core heating technology enhances thermal conduction

Wood fire' feature for authentic, traditional rice
- Adjust cooking curve to simulate traditional rice cooking
- The smart rice soaking program saves soaking time

Detachable lid for easy cleaning
- Easily detachable lid makes cleaning easier than ever
- Unique hangable, stand-up design for easy drainage

PHILIPS

Rice cooker
Premium inner pot series 4L, 860W

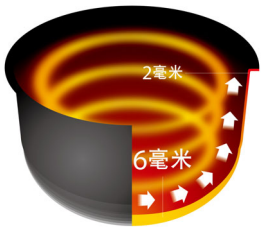
HD3095/50

Highlights

Energy-cohesive ring design

The base of the pot contains multi-layered energy-cohesive rings that lock heat in and effectively enhance thermal cycling.

Thick-based/thin-walled design



The gradually changing thickness of the pot distributes heat evenly throughout the pot, ensuring tasty rice with a great texture from top to bottom.

6mm thick black crystal pot

The 6mm thick base of the pot has excellent heat conduction and retention properties, effectively preventing partial burning and ensuring every grain of rice is cooked evenly

Double core heating technology

The double core heating tubes increase the heated area at the base while the wrap-around bowl design perfectly compliments the black crystal pot, providing faster, more efficient heating and ensuring each grain of rice absorbs an adequate amount of water and boils for just the right amount of time for tastier, fluffier rice

Easily detachable lid

The lid can be completely detached after use allowing direct cleaning from every angle, leaving no residual dirt and making cleaning easier than ever

Hangable, stand-up lid

After cleaning, the lid can be placed vertically on a counter or hung on the wall directly for easy draining

Hi-tech ceramic coating

The ceramic coating is harder and more wear-resistant than conventional coatings for stronger wipe-resistance and longer service life

Specifications

Design specifications

- Materials of main body: stainless steel
- Dimensions (L x W x H): 395*300*245 mm
- Color(s): Silver casing, purple panel

Accessories

- Rice scoop
- Measuring cup
- Soup scoop
- Integrated steamer and plate

Technical specifications

- Voltage: 110 V
- Frequency: 60 Hz
- Wattage: 860 W
- Cord length: 1 m
- Inner pot capacity: 4L
