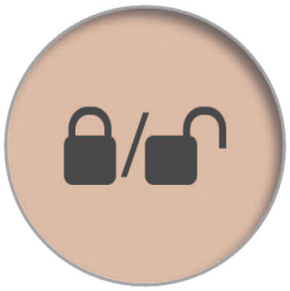
Highlights

6 power levels

6 power levels suitable for different cooking needs.

Child lock function

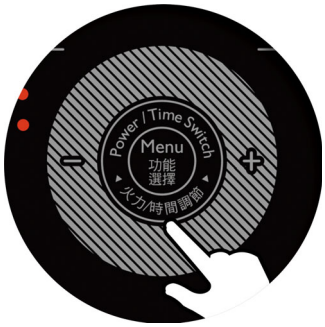


During cooking, press and hold the child lock for 3 seconds to automatically lock the operating panel to avoid misuse and harm to children. Cooking with peace of mind. Simply press again and hold for 3 seconds to unlock

Efficient cooling structure

The fan duct layout, high frequency rotation whirlwind fan, 30 seconds delayed working, spaced heating coil, insulation technology of the top ceramic plate, and high efficiency cooling system all work to extend the service life of the product

Rotating touch technology



Hi-tech touch sensitive controls avoid the physical wear that occurs with traditional buttons through long-term use. Water-resistant and accurate, with long-lasting sensitivity. Adjust cooking times easily and accurately by using the rotating touch controls for ultimate convenience

Unique insulated design

Insulated design protects parts for longer service life
