PHILIPS

Avent Royal Gift Set
Classic

SCD683/31

Highlights

0% BPA

This product contains 0% BPA

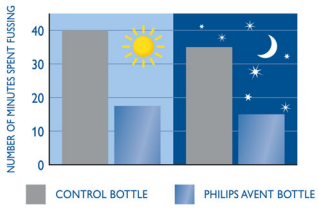
Unique anti-colic system

As your baby feeds, the unique valve on the teat flexes to allow air into the bottle instead of your baby's tummy.*

Easy latch on

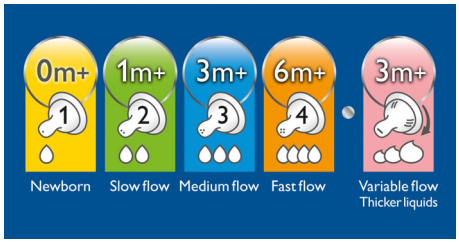
Unique valve on the teat flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimise overeating and spit-up, burping and gas

Helps settle your baby



Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behaviour". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min, p=0.05). This was especially true at night.**

Fits your baby's growing needs



Five different teat flow rates are available.

Specifications

Country of origin
- England

Material
- BPA free*

What is included
- Silicone Soother: 2 pcs
