NGS GAMING COOLER GCX-400

GAMING COOLER WITH 5 FANS AND LCD SCREEN

GCX-400 is an excellent choice to reduce the working temperature of notebooks in a noticeable way and refresh your laptop. You will be able to play long lasting gaming sessions.

NGS GCX-400 incorporates 5 ultra silent cooling fans of 12 and 7(*4) cm that will allow you to create a cooling zone adapted to your needs.

Made of high-quality plastic structure, the top is covered with a metallic mesh and includes a 100% Gaming look frame. Your notebook will achieve extreme performance under any circumstance, due to the strong air flow generated by the 6 levels fan speed (2.500 rpm+/-10%).

The cooler excels by its awesome Blue LED illumination that creates an environment conducive for playing your favourite games. It also incorporates an LCD display with ON/OFF and fan dimmer function button.

The cooler delivers an optimum inclination to ensure the correct height of the laptop.
This cooler offers comfort and ergonomics of use thanks to its five selectable tilt angles
Besides, GCX-400 includes two 2.0 USB ports in order to increase the connectivity of the notebook, by giving the chance to connect extra devices.

NGS GCX-400 cooler stand is compatible with notebooks up to 17" and below. Dimensions: 365*297*30mm.

Finally, it is equipped with a security fixation system in the lower part to prevent notebooks from sliding and to ensure a better grip.
