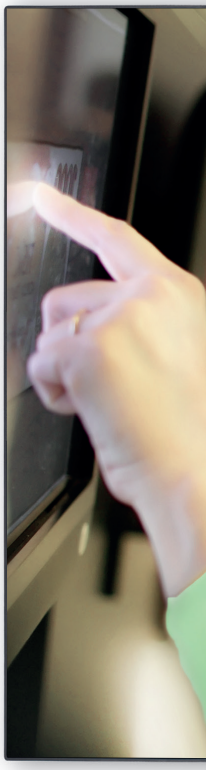
THE SMART WAY OF TOUCH COMPUTING



THE ANDROID BOX WITH TOUCH

ANDROID

CONNECT TO A WORLD OF CONTENT AND ENTERTAINMENT

with ease or expand your productivity in every possible aspect, from web browsing, email or social media updates to business applications, all at your fingertips.

COMBINE THIS WITH A MINIMALISTIC AND SPACE SAVING DESIGN,

Android OS, and a very low power consuming system and you have yourself a modern interactive infotainment and business centre that can perform everyday computing tasks and enhances the touch computing experience.

ADDITIONALLY THE ANDROID BOX 6 IS AN EXCELLENT CLIENT SOLUTION

for various sectors such as Education, SMB & Enterprise. Thanks to its Octa Core processor, 2GB of RAM & screen rotation functionalities it is the perfect companion for a wide variety of integrated applications such as POI's, Vending, Totems and many more.
