Highlights

AquaClean filter

Saeco's new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups*, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your favourite Saeco coffee machine.

Quick Heat Boiler

When time is of the essence, you can brew perfect espresso and cappuccino without the wait, thanks to the Quick Heat Boiler. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

Customize your coffee

Choose your ideal strength from the 5 different settings, select the length and the temperature. You can easily save your desired coffee length with the Memo Function for each drink. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

100% Ceramic grinders

The robust 100% ceramic grinders guarantee a moment of pure coffee indulgence for years to come. The ceramic material creates the ideal grind, which allows the water to flow through steadily, extracting the purest essence of the beans. And unlike other 'regular' grinders', the ceramic material prevents the coffee from overheating and tasting burnt.

10-settings adjustable grinder

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavour to unfold. So the grind granularity of this machine has ten adjustable settings – from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.

One-touch Cappuccino and Latte

Every coffee you prepare will be topped with a silky, milk layer that beckons the taste buds. The milk carafe froths the milk twice, then pours a splash free creamy layer into your cup at just the right temperature. The carafe can also be stored conveniently in the fridge and it is incredibly hygienic.

Specifications

Accessories
- Included: Measuring scoop, Water hardness test strip, Cleaning brush, Waterfilter

Design
- Color: Black, Stainless steel

Finishing
- Material boiler: Stainless steel (Inox)
- Material drip tray: Stainless steel
- Material of main body: Stainless Steel front
- Material water tank: Plastic

Country of origin
- Made in: Europe

General specifications
- Coffee strength settings: 5
- Cups at the same time: 2
- Customizing per drink: Adjustable coffee strength, Adjustable cup volume, Adjustable temperature, Memo function cup volume
- Ease of cleaning & maintenance: Automatic de-scaling cycle, Automatic rinse cycle, Calc indicator, Automatic carafe cleaning, Dishwasher-safe parts, Removable brewing group, AquaClean filter compatible
- Ease of use and comfort: Adjustable spout, Display, Removable drip-tray, Removable water tank, Automatic shut-off
- Grinder settings: 10
- One touch variety: 11
- Special functions: Ceramic grinder, Hot water option, Integrated carafe, Ground coffee option, Pre-brewing
- Temperature settings: 3
- Type of carafe: Basic carafe
- Type of display: LCD

Service
- 2-year guarantee

Sustainability
- Energylabel: A-class
- Power consumption brewing: 1850 W

Technical specifications
- Brewing time one cup: 45 (espresso) to 100 (long coffee) sec
- Capacity bean container: 250 gr
- Capacity milk carafe: 500 L
- Capacity waste container: 15 servings
- Capacity water tank: 1.8 L
- Cord length: 1.2 m
- Frequency: 50 Hz
- Max. cup height: 78 - 164 mm
- Pump pressure: 15 bar
- Voltage: 230 V
- Water boilers: 1

Weight and dimensions
- Dimensions of product (WxDxH): 215 x 429 x 330 mm
- Weight of product: 7.2 kg
