MPN: MC-DP-KVM202K

Displayport & USB-C KVM Switch 2-Port

This MicroConnect KVM switch is designed to let you control two desktop computers using a single set of peripherals (monitor, keyboard, and mouse). It supports high-resolution displays (up to 8K@60Hz), fast data transfer via USB 3.0, and easy switching between devices with a one-click button or wired remote. Ideal for streamlining multi-computer setups without clutter.

- One-Click Switch & Wired Remote Control: Seamlessly switch between devices with just one click or using the wired remote control, keeping your workspace organized and clutter-free.
- Supports DP 8K@60Hz/4K@240Hz and USB-C 3.0 (5Gbps) Host Input: Designed for use with two desktop computers. (Note: Not recommended for laptops with only USB-C full-function ports.)
- Expanded Connectivity: Includes three USB 3.0 Type-A ports, one USB-C port for devices up to 5Gbps, and a 3.5mm audio port for USB audio.
- High-Performance Connections: Engineered for efficiency, featuring quality USB-A and USB-C ports that support fast data transfer rates (5Gbps) and ensure smooth operation of all connected devices.
- Included: *USB-A to USB-C Power Cable Power Charger EU plug Power Charger UK plug * USB A to C Cable x 2 * Desktop Controller * User Manual

Specifications

Design	**Rack mounting**	No
Legal Information	**Country of Origin**	China
	Tariff No.	8543709099
	UNSPSC Code	43211601
