Philips
Mouse with Bluetooth wireless technology

SPM9800

Touch me everywhere

I'm a full-freedom mouse with clever 360° touch control™, wireless Bluetooth convenience and a hidden wind-up USB cable for recharging from your notebook. I'll also give you all-day comfort whether you are left or right handed.

Really easy

- 360 TouchControl™ for total navigation
- Works even without a surface
- Rechargeable with USB
- Precise laser sensor
- Low battery indicator keeping you informed of power level
- Travel pouch doubles as screen cleaner
- Works with MAC and PC

Wirelessly connect to multiple PCs

- Bluetooth enabled - no extra dongle needed

PHILIPS

Highlights

360 TouchControl™

You don't need a mouse pad for this mouse. Philips 360°TouchControl™ lets you scroll through lengthy documents without installing extra software. Designed for easy navigation of spreadsheets, web pages, photos and maps when the notebook is connected to a monitor, so you can still navigate comfortably while relaxing on the sofa and be in full control of the notebook—unlike a notebook touch-pad. Instead of the traditional scroll wheel, its touch sensor gives you the freedom to move in all directions. With your finger on the sensor you can move the cursor smoothly and quickly through 360 degrees.

Works even without a surface

With the 360 TouchControl, the mouse can work even when there is no surface

Bluetooth enabled

With Bluetooth technology, the mouse can be connected directly to the notebook without the hassle of a dongle

Rechargeable with USB

Rechargeable with USB

Low battery indicator

The low battery indicator lights up when the power is low.
