

Philips SmartPro Easy
Robot vacuum cleaner

Ultra-Slim Design

3-step cleaning system
Wet mopping

FC8794/82

Full performance, smart cleaning

Extra slim, vacuums&mops difficult to reach areas

The Philips SmartPro Easy gives autonomous, optimal cleaning result in 3 steps: its side brushes swipe all dirt, strong suction vacuums it all and a microfiber mops the finest dust. Its ultra slim design allows it to clean under low areas..

Thorough cleaning performance

- 3-step cleaning system including wet mopping function
- 600 Pa high power for strong suction
- Ultra Hygiene EPA12 filter
- 4 cleaning modes to adapt to different areas

Cleans on its own

- Smart Detection System 2 adapts cleaning to any environment
- 24 hours advance scheduling
- Powerful Li-Ion battery 105 min operating time

Cleans where others can't reach

- 5.8 cm ultra slim design to clean under low furniture

Convenient and easy to use

- One button operation
- Easy to empty dust bucket

PHILIPS

Highlights

3-step cleaning system

First two long brushes swipe dirt and dust into the path of the robot. Then, the nozzle picks up dirt and dust thanks to its powerful motor. Lastly, a wet-able microfiber pad enhances the cleaning by collecting even the finest dust from your floors.

High suction power

Compact but strong - your Philips robot vacuum cleaner has 600 Pa of suction power, so it can clean efficiently with the power you need to get rid of dust and dirt, fast.

Ultra Hygiene EPA12 filter

Ultra Hygiene EPA12 filter captures 99.5% of fine dust particles while filtering the exhaust air. This keeps dust securely within the container, preventing secondary contamination.

4 cleaning modes

Depending on the type of the room, the Robotic Vacuum cleaner will follow one or several cleaning modes: Z-type cleaning, spiral, bounce or wall-following cleaning patterns.

Smart Detection System 2

Philips SmartPro Easy is equipped with the Smart Detection System 2, a combination of smart chips, up to 23 sensors and accelerometer, that makes the robot efficient to clean on its own. The Robot understands the environment and chooses an optimal cleaning trategy to clean your home as quickly as possible. The robot does not get jammed and returns to its docking station when necessary.

5.8 cm ultra slim design

Philips robot vacuum cleaner has a very compact and slim design that allows it to clean under very low spaces.

Scheduling function

Philips SmartPro Easy offers a 24 hour scheduling function, so you can program your next cleaning session 24 hours in advance.

One button operation

Just turn it ON and it will immediately start cleaning your floors. It is very easy to use.

Specifications

Performance
- Battery type: Li-Ion
- Battery voltage: 14.8 V
- Charging time: 4 hour(s)
- Runtime: 105 minute(s)
- Sensors: 23 sensors
- Suction Power (Max Pa): 600

Usability
- 24-hour scheduling
- Cleaning modes: 4
- Types of Floors: Carpet, Hardfloor

Design
- Color: Black, Electric aqua

Filtration
- Dust capacity: 0.4 L
- Exhaust filter: EPA 12 filter

Nozzles and accessories
- Accessories included: AC power adaptor, Charging base, Micro fiber pad, Side brushes, Exhaust filter, Remote control

Sustainability
- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

Weight and dimensions
- Dimensions of product (LxWxH): 300x300x58.5 mm
- Weight of product: 2 kg

Issue date 2017-03-15

Version: 7.1.1
