Ortronics
Fan Cut-Out Grommet Kit, 4", Magnesium
Part No. FCGK4-M

The grommet is designed with 2 half sections for easy installation into any Legrand cabinet with a 4"" fan knock-out. Each half contains segmented strips that can be separated to ensure a good seal regardless of the cable bundle size. The strips of each half overlap at the center further ensuring a complete seal.

Features & Benefits

Each grommet has members that can be separated to ensure a good seal regardless of the cable bundle size.

Flexible rubber material.

2 half sections.

Helps to keep out dust and contaminants.
