# USB keyboard with Smart Card Reader Qwerty (IT) layout

Comfortable keyboard and eID card reader in one!

## DESCRIPTION

**The Ewent EW3251 is a functional USB keyboard with an integrated Smart Card Reader. This keyboard is specially designed for use in the security, medical and/or the financial sector. The EW3251 is PC/SC compliant, so the keyboard is suitable for all common operating systems. The built-in Smart Card Reader reads your eID or Smart Card. The keyboard has a Italian layout and is equipped with a USB connection.**

**Control your taxes digital**

Do you want to use all the digital possibilities of your smart card? The built-in Smart Card Reader reads data from your eID. So you can easily arrange your taxes online or sign digital your e-mails to the government.

**Private and Business**

Besides digital communication with the Italian government, the EW3251 is the ideal keyboard for professional use. The built-in card reader is designed to meet all major Smart Card standards and specifications, including personal identification cards. This makes it useful for e-Commerce, e-Business, digital signature, authentication and access protection. The card reader is CAC approved and compliant with PC/SC as well as WHQL. In addition, the EW3251 is a functional keyboard and compatible with any computer. One free USB port is all you need to connect.
