Webcam

- VGA
- CMOS

SPC510NC/00

Video chatting at higher resolutions

With its black finish and tiny design, this webcam looks as good as the high resolution images it takes. Its sturdy foot design sits securely on any monitor and you can pivot the camera 360° to video any part of your room.

Benefits

Perfectly user-friendly

- Snapshot button lets you take great instant photos
- Take, archive and manage images and V-mails with VLounge
- Compatible with MSN, Skype and other free messaging services
- Installation manager for easy setup

Natural images at higher resolution

- Automatic Picture Optimiser for super image quality
- Smooth image with 30 frames per second video
- Super VGA resolution for high-quality images
- Rotating lens for perfect aiming and natural images

Stylish and functional design

- Standalone external microphone gives you recording freedom
- Turn the camera 360° on its pivot joint
- Stable mount on any monitor, laptop or desk

Features

Snapshot button

With just one press of this button, your webcam takes a picture automatically. It's a fun way to share your pictures by adding them to e-mails, webpages or documents.

Automatic Picture Optimiser

The Automatic Picture Optimiser helps you get the most out of your webcam by automatically adjusting the camera and image settings to match the light available.

PHILIPS

30 frames per second video

Sit back and enjoy superior viewing with 30 frames per second video. This gives you smoother video images and a better all-round video chatting experience.

Standalone external microphone

With a separate external microphone, you have the freedom to place it where it best picks up your voice to add high-quality audio to your video chats.

Super VGA resolution

The webcam captures Video Graphics Array (VGA) quality (640 x 480) snapshots and flicker-free video clips for video mails. With VGA resolution, your webcam becomes a professional-level camera. Add high-quality photos to documents, webpages and e-mails in an instant, or print out photo-quality images.

Pivot joint

Enjoy easy webcamming freedom with this handy pivot joint design. Just twist the camera 360° in any direction to film anywhere in your room without moving the webcam at all.

VLounge software basic

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will be able to create and send Video mails. This software package gives you all you need to take full advantage of your Philips webcam.

Compatible with MSN and Skype

The webcam and its software have been designed with all messaging systems in mind. Add video to Skype, MSN Messenger, Yahoo!, AOL Messenger and other free messaging services. It also works with Windows Messenger and NetMeeting for multi-person video conferencing and is designed to be future-proof.

Installation manager

Install your webcam in seconds with the handy Installation Manager. Just follow the easy, step-by-step instructions and you'll have the webcam set up to match your computer perfectly.

Stable mount

The multifunctional stand makes it easy for you to mount the webcam on any monitor, laptop, notebook or flat surface.

Rotating lens

Rotating lens for perfect aiming and natural images. You can get the right camera angle quickly and easily without having to put things underneath it to change the tilt.
