Part No.: 180795

EAN-13: 0766623180795 | UPC: 766623180795

Compact Wireless Keyboard and Mouse Set to maximize your productivity

The Manhattan MWK4095 Slim Wireless USB Mini Keyboard and Mouse Combo Set combines excellent value with comfort and durability. Use the keyboard on your lap, at your desk, or anywhere that falls within 10 m (33 ft.) of your USB-A device. Its compact design combines great features you expect in a standard keyboard but takes up 25% less space. When used in tandem with the included Wireless Optical Mouse with its 1200 dpi, standard buttons for left and right clicks, and an easy-access a scroll wheel, you are sure to notice an increase in how much you can get done. One single nano receiver connects both devices to your computer and is so small that it hardly sticks out of your laptop’s USB-A port.

The benefits of wireless freedom

Cut the cord from your wired USB keyboard to declutter your desk and raise your typing comfort over the touchscreen on your tablet/phone. It requires just one AAA battery and is equipped with an intelligent power management system that conserves battery life. When the keyboard is not in use, it will automatically power down. Once you start typing again, it turns back on.

Comfortable typing plus quick multimedia access

The membrane key switches give you a comfortable, highly precise typing experience. Twelve function keys offer quick access to frequently used multimedia commands like email, browser or music control.

Ultra-compact and convenient

Its compact form is ideal for small workspaces, providing more room for your mouse. The adjustable tilting mechanism keeps the keyboard angled for maximum typing comfort. Rubber feet to prevent slipping and to protect your desk from scratches.

Just the right mouse size

With a full-size shape of 10 cm (4 in.) length, the mouse offers a more comfortable grip than a mini mouse but is still compact enough for small laptop-bag pockets. An ambidextrous shape that comfortably fits the palms of right- and left-handed people and its familiar configuration (three buttons with scroll wheel) make this Wireless Optical Mouse ideal for nearly anyone's daily computing needs.

Plug & play

Plug-and-play capability with Windows®, Mac®, Linux®, and Chrome OS™ compatibility makes installation quick and easy.

Features:

- Sleek set of 1200 dpi optical mouse, keyboard, and wireless receiver with auto power management
- 79 rounded keys with membrane switches to reduce typing noise and offer precise keystroke response
- Sleek, compact design only 300 mm (12 in.) wide, ideal for small workspaces
- 12 function keys offering quick and easy access to frequent multimedia functions
- Wireless 2.4 GHz RF nano receiver with USB-A plug for an effective range up to 10 m (33 ft.)
- Adjustable tilt mechanism offers comfortable typing positions
- Rubber feet to prevent slipping and to protect your desk from scratches
- On-board storage compartment to protect USB receiver from loss and damage
- Classic left, right and middle mouse buttons with smooth scroll wheel featuring great tactile response
- Ambidextrous design for left- and right-handed users
- High-precision optical sensor with 1200 dpi for lag-free control on almost any surface
- Mouse requires one AA battery, keyboard requires one AAA battery (both included)
- Auto-power management to help maintain proper battery levels
