Plug & Play

Highlights

24 carat gold-plated connector
24 carat gold-plated connectors ensure the best signal quality for your components.

Braided shielding
Copper braided reinforced aluminum shielding protects against signal loss and interference.

Easy grip
This non-slip grip makes connecting your components easy and ergonomically comfortable.

Plug & Play
Plug & Play gives you the ability to install or add a new component and have it work without having to perform any complex installation procedure or technical analysis.

Flexible PVC Jacket
Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief
Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.

Metal shell
The metal shell protects the internal connection of the cable. It ensures durability and the reliability of your connection.

Lead-free construction
Lead-free construction of environmentally friendly materials.
