Premium quality
- Durable design with PowerShield coating

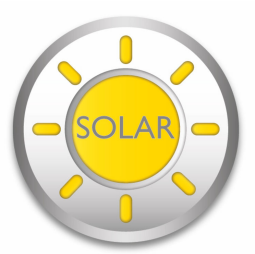

Designed for outdoors
- IP44 – weatherproof

Special characteristics
- Motion and dusk-to-dawn sensor integrated

High-quality light
- Warm white light 2,700 K

Highlights

Ultra-efficient solar

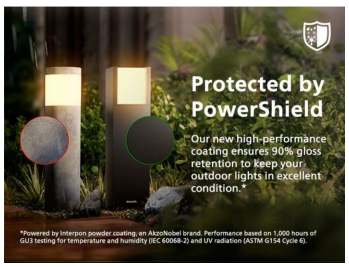

With the Philips Ultra Efficient Solar system, these luminaires provide light for up to 35 hours on a fully-charged battery. Enjoy bright light all night, or even in bad or overcast weather conditions.

Stylish contemporary designs for your garden

These contemporary designs by Philips are stylish but understated, beautiful by day or night without overwhelming your garden or terrace. There is a full range of lights to choose from, so there is bound to be one to match your outside space and taste.

Durable design

Protected by PowerShieldTo keep your outdoor lights in excellent condition, we use a high-performance powder coating powered by Interpon, an AkzoNobel brand. Tougher than traditional paints, it protects against fading, scratches, dents and rust for long-lasting beauty and performance.

IP44 – weatherproof

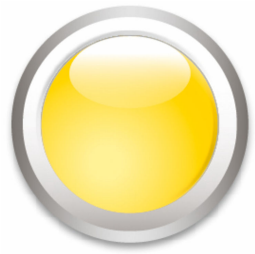

This Philips outdoor light is especially designed for humid outdoor environments and has been tested rigorously to ensure water resistance. Its IP44 rating means that it has been certified to offer ingress protection against dust and splashing water – perfect for general outdoor use.

Motion and dusk-to-dawn sensor integrated

With a built-in motion sensor, these lights automatically welcome you when you return home after dark, or light up when visitors arrive. The unique dusk-to-dawn feature turns the lights on automatically when it gets dark outside – perfect for those long summer evenings or to ensure your safety.

Warm white light 2,700 K

Did you know that different shades of white light are identified by different colour temperatures, measured in Kelvin (K)? Lower colour temperatures produce a warm, cosy white light, while higher colour temperatures produce a cool, more energising white light. This luminaire produces warm, relaxing light at 2,700 K.

Specifications

Design and finishing
- Colour: Black
- Material: Metal, Plastic

Durability
- Nominal lifetime: 15,000

Environmental
- Disposal of the product: At the end of (economic) life, dispose of the product in accordance with local rules. Do not dispose of the product with regular household waste.
