Highlights

18x protection system

18x safety protection system for worry-free cooking

Add Ingredients during cooking

Press the Add Ingredients During Cooking button at any time during the cooking process to add or stir ingredients, making cooking easier and food more nutritious and delicious.

Safety auto pressure release

In case of abnormal high pressure inside the cooker, steam will be released automatically from the pressure regulator valve to ensure safety.

Dual temperature control

With the dual temperature control technology, the combination of temperature, pressure and cooking time is optimized for different ingredients, bringing out the authentic flavors and ensuring great taste.

Food grade materials

Materials in contact with food comply with EU food grade standards.

Modern design

Clean top surface without protruding elements, fitting into any kitchen easily.

Sauce thickening function

After releasing pressure, you can press the Sauce Thickening button for high-power boiling to get richer sauces and tastier dishes.

User friendly control panel

Sensor touch control on the top, which can be seen clearly and operated comfortably

19 automatic cooking programs

19 automatic cooking programs, including 7 unique roasting/baking programs, enable you to make various homemade dishes easily.
