MPN: CA-IPPC-A1114

15-Inch Industrial Panel PC - J6412 / 8GB RAM / 128GB SSD / With Win11

Capture's rear-mounted Panel PC's with multi-point projected capacitive (PCAP) touch screen delivers an industrial-grade & reliable solution with wide-angle viewing, outstanding image clarity & light transmission. It features accurate touch responses and durable dust & water resistance that is similar to iPad flat surface. Designed with elegant aluminum brushed polishing finish, ultra-thin & ultra-narrow symmetrical bezel, it is ideal for landscape, portrait and face-up orientation. Full range Intel OPS standard plug & play PC modules (easy to upgrade and maintain) with different configurations, meeting most applications and making the integrator's pre-design and on-site construction easier. It is an ideal solution for display, retail, catering and medical industries.
