- Quick calc release to remove scale from your steamer

Fast and powerful performance
- Steam output of up to 45 g/min for better crease removal
- 2400W for quick iron heat up
- Steam boost up to 170 g

PHILIPS

Steam iron
Steam 45g/min;170g steam boost SteamGlide Plus soleplate, Anti-calc, 2400 Watts

GC4510/36

Highlights

Steam up to 45 g/min

Continuous steam output of up to 45 g/min gives you the perfect amount of steam to efficiently remove all creases.

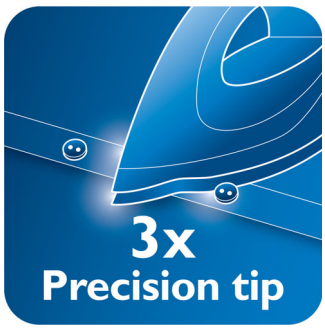
Auto Steam Control

Auto Steam Control takes away your worry for selecting the amount of steam you need. Just select the temperature for the garments you're ironing and off you go.

Optimal weight

The iron has the optimal weight to move easily over any garment, making ironing less of a hassle and easy to constantly place the iron on the board and back to its heel rest.

Triple Precision Tip



The pointed tip on the Philips Azur Performer is very precise in 3 ways: it has a pointed tip, button groove and a sleek design of the nose. The Triple Precision tip enables you to reach even into the most tricky areas, e.g. around the buttons or between the pleats.

2400W for quick heat up

With the 2400W the Azur Performer Plus steam iron will heat up quickly and give a powerful performance to deliver super ironing results.

SteamGlide Plus soleplate

Our best gliding SteamGlide Plus soleplate to whizz through your ironing. The carefully designed vents secure a well balanced steam distribution.

Steam boost up to 170 g

The steam boost can be used for vertical steaming and tough creases.

Self-Clean

In addition to the built-in calc container, the self-clean function of your soleplate will remove the most stubborn calc. A clean soleplate will improve your steam performance and ironing results.

Quick calc release

Quick calc release is the easiest way to remove scale from your iron and guarantees consistently powerful steam for years to come.
