Highlights

An upgradeable platform
Link up to four chimes and four different transmitters with all the accessories: call button, door/window opening detector and motion detector. Each transmitter can have its own doorbell melody to be easily identifiable.

Low battery alert
If your battery is low in your Philips detector, you will be alerted immediately with a simple light flash. No more surprises from a wireless doorbell that no longer works.

Opening = alert
Be alerted each time the door or window opens with Philips chimes and the WelcomeBell 300 AddContact opening detector.
