Enjoy a beautiful garden with light

The Philips myGarden Woods wall light in stainless steel provides a strong general light output and an indirect decorative light effect, perfect for highlighting your outdoor walls. With an eco bulb included, it saves energy too.

Benefits

Designed for your garden
- IP44 - weather-proof

Sustainable light solutions
- Warm white light
- Philips bulb always included
- Energy saving

PHILIPS

Features

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Philips bulb always included

High-quality Philips EcoLamp energy-efficient light bulbs are included in the box for achieving the best light effect.

Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

IP44 - weather-proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water. This product is most commonly used and ideal for general outdoor use.

Specifications
