MPN: CA-K799N3-1214

21.5-Inch Stainless Steel Panel PC - N97 / 8GB RAM / 128GB SSD / with Win11 IoT Value

CA-K799N3 series is a 21.5-inch stainless steel panel PC engineered for demanding environments such as commercial kitchens and industrial settings. Its robust construction and waterproof design ensure protection against spills and splashes, making it ideal for kitchen displays.

Powered by the latest Intel® 14th Gen Alder Lake-N and Meteor Lake processors, the CA-K799N3 series delivers superior performance and energy efficiency. It offers seamless compatibility with Windows, Linux, and Android 13, providing flexibility for various operational requirements.

The ruggedized Panel PC features a 21.5-inch Full HD (1920 x 1080) display with PCAP touch technology, offering intuitive navigation and robust durability. Two rubber rings seal the device against water droplets, enhancing its protective capabilities. In addition to that a specially designed cable cover with a cable brush significantly improves water resistance, ensuring a clean and organized setup.

Key Features
- Integrated with Intel Alder Lake-N and Meteor Lake processors
- Compatible with Windows, Linux, and Android operating systems
- Touchscreen size options of 15.6” and 21.5”
- Water-resistant with front IP65 rating
- Cable cover with a cable brush to improve water resistance
- Easy access to the motherboard box for service and maintenance
