AIM
E-SPORTS RGB CHAIR

DNA RGB LIGHT

MAXIMUM QUALITY

The AIM chair offers the best possible quality thanks to its pro-gaming design and materials, providing incredible comfort and an elegant black synthetic leather finish that combines perfectly with its lighting color.

Its high quality foam padding manages to provide the ideal comfort to play for hours with maximum performance. In addition, it has two removable padded cushions: one for the head and one for the lower back, keeping you relaxed while you play as much as you want.

SENSATIONAL RGB LIGHTING

The backrest of the AIM chair is equipped with an impressive DNA RGB fiber optic lighting system, powered by powerbank* and conducted by infrared remote control, which allows you to manipulate the light without even getting up from your seat.

Its elegant black design enhances the colors, making the AIM chair an indispensable element for any RGB lover. It has 4 lighting effects and up to 16 colors to choose from.

Enjoy a pro-gaming seat with integrated lighting and spectacular design.

*Powerbank and control remote batteries not included

DESIGNED FOR THE MOST PERFECTIONIST GAMERS

Both the durability and the comfort of the AIM chair are designed to provide all the necessary features for an advanced gaming experience. Equipped with a Class 4 hydraulic piston, sturdy metal frame and 50mm nylon wheels, this is a seat designed to provide the highest quality and the most professional performance.

It adapts perfectly to any user and to any type of need. It hasa djustable 2D armrests, adjustable height and reclining backrest up to 180°, so that you rest between games with total freedom.

Live the AIM experience with best comfort!
