Nourishing baby moisturizing lotion
200ml

SCF503/32

Highlights

Mild enough for delicate skin
Our product is free from parabens, alcohol, fragrance and MIT*.

CeraProtect for healthy skin

CeraProtect is derived from a Nobel chemistry prize winning technology. The component and composition are closest to human skin, so it is effective in preserving moisture and strengthening skin barrier.

Moisturizing milk proteins

Used through the ages to nourish, cleanse and moisturize the skin, milk proteins are rich in over 20 amino acids, nourishing vitamins and calcium that have been proven to actively help soften, moisturize and replenish the skin.

Calendula to soothe and repair

Known for its healing properties, Calendula helps to calm and restore irritated skin.

Avocado oil to nourish

Rich in vitamins A, D and E, and with better absorption and skin penetration compared with other oils used in skincare products, Avocado oil can effectively moisturize and nourish baby's skin.
