SimplyWorks For iPad

Part Code: M-NS-TB

Trackball

The SimplyWorks Trackball can be used with any SimplyWorks receivers for computer or iPad input, and to control toys and other battery operated applicances.

The SimplyWorks Trackball uses the latest wireless and optical technologies for interference free operation and silky smooth ball movement.

Lightweight and robustly constructed with no mechanical wearing parts, the SimplyWorks Trackball can be used as either a desktop or hand-held unit.

The SimplyWorks Trackball also features colour coded Left/Right and Drag Lock buttons mounted sub-flush to prevent accidental operation.

Features

- Works with any SimplyWorks receiver.
- Uses 2.4GHz global, licence-free ISM radio band.
- State-of-the-art radio link with an interference free operating range exceeding 10 metres.
- Durable Optical technology with a large, light touch, free-running ball, and silky smooth ball movement.
- Low profile providing a natural hand rest for comfortable operation.
- Colour coded buttons mounted sub-flush to prevent accidental activation.
- Trackball sockets to operate Left/Right click buttons from remote switches.
- Easy 'plug and play' installation (no additional drivers required).
