Highlights

Hidden power-indicator light
Discreet and energy conscious, the hidden LED light appears with the push of a button to let you know the power status of your battery pack at a glance.

Works anywhere
Even if you're not near a wall or car charger, you can recharge your device's battery with the convenient battery pack. The intelligent battery pack supplies power first, so you can remove the pack after use and still have a full battery on your device.

Integrated cable management
Use the integrated cable management system to conveniently store your cable and to keep things compact and organised when you travel.

Micro-USB cable included
The included micro-USB to USB 2.0 cable is for use with mobile phones, digital cameras and other portable devices with a micro-USB connection. Carry it with you, keep it at your desk or replace a cable you've lost so you're always able to connect and charge when you need to.

Mini-USB cable included
The included mini-USB to USB 2.0 cable is for use with mobile phones, digital cameras and other portable devices with a mini-USB connection. Carry it with you, keep it at your desk or replace a cable you've lost so you're always able to connect and charge when you need to.

Recharge multiple times
This portable power source gives you the extra power for more than two full recharges on the go. Take it with you when you travel to have back-up power when you need it.

Sync and charge cable included
The included 30-pin to USB cable is essential for syncing your iPhone or iPod with iTunes, and for charging via your computer or USB charger. Carry it with you, keep it at your desk, or replace the one you lost so you're always able to connect and charge when you need to.

Works with USB-based devices
The universal unit has a USB connection for use with your USB-based device via the device's USB cable which you already own or can purchase separately.
