Coffee & Co.

WMF KITCHENminis® Espresso Maker Edition

Enjoy your coffee the italian way. At home, in the office or while traveling.

There is a trend towards conventional ways of making coffee and espresso like in our grandparents' generation. The traditional espresso machine with a water tank and a screw-on pot, which was there back in the days when the "little black dress" first found fame, is also experiencing a revival. Made from finest Cromargan., it is easy to clean and long-lasting. With a 400 watts of power, you can prepare 2 or 4 cups of espresso in no time at all.
