Highlights

Forms and materials
Offering multiple styles to blend perfectly into anyone's home, the Philips inStyle lighting fixtures are designed to match a wide range of interior decorations. With a range of applications and finishes available, they combine well with features such as curtains, furniture, paint and accessories to complete the look you want. Careful attention to detail and design help you to express your personal style and perfect your interior decoration, creating an inviting ambiance that you and your friends and family will enjoy.

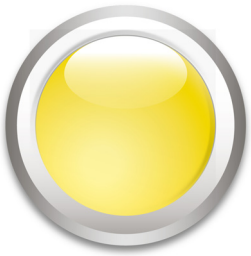
Multiple applications

If you enjoy design, and like to experiment with the latest styles and themes in your home, try Philips inStyle. It's a range of decorative suspension lights, wall lights, ceiling lights, floor and table lamps in premium materials and different colours.

High Power LED

The LED module of this lamp is a uniquely developed solution by Philips, combining 3 LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and a 100% uniform light colour.

Warm white light effect



Light up your home with warm white light effects thanks to the latest LED innovation. Philips introduces the latest generation of high-power LEDs, providing a warm white light reaching a colour temperature of 2700 Kelvin. This innovation brings the Philips lighting fixtures to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.

The perfect beam angle

Philips offers a range of lamps with strong light output. The light shines at a beam angle of 40°, which is the perfect angle for task lighting.

Energy saving

This Philips light conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long life of at least 20.000 hours (which equals 20 years on basis of an average use of 3 hours a day with an amount of at least of 13.000 on/off switching cycles). With the Philips LED lights you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

On/off switch on article
With the button discreetly integrated into the article, you can easily switch the light on and off.

Rotates freely
You can rotate the lamp head of the Philips lighting fixture in the desired direction and bring light where needed.
