PHILIPS

Highlights

Adjustable height

This light is delivered with long cables to offer you maximum flexibility during installation. Choose the perfect height matching your needs.

Diffused warm white light

This light uses the latest energy-saver lamp technology to provide a flood of warm white natural light. Its diffused light will illuminate your room with warm white light, allowing you to combine functionality and respect for the environment. Diffused light is perfect for general illumination.

Dimmable

Adjust the light intensity with a dimmer switch (not included). This makes this light ideal for creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room. Philips tested a number of wall dimmers that have proved to be compliant with our LED lights. A list of compatible dimmers is available in the downloads and support section.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long-life of at least 20,000 hours (which equals 20 years on a basis of an average use of 3 hours/day with an amount of at least of 13,000 on/off switching cycles). It feels so comfortable to think that you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

High light quality

A module of 7.5 W produces the equivalent light output as a 40 W incandescent lamp (350 Lumen) with strong light output.

High Power LED

The LED module is a unique solution developed by Philips, which combines 3 LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and a 100% uniform light colour.

Saves up to 80% energy

The LED lighting technology used in Philips luminaires is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every luminaire conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

Specifications

Design and finishing
- Material: aluminium
- Colour: white

Extra feature/accessory incl.
- PowerLED integrated
- Compatible with wall dimmer
- Adjustable height

Product dimensions and weight
- Height minimum: 0.0 cm
- Height maximum: 250 cm
- Length: 38 cm
- Width: 21.1 cm
- Net weight: 2.530 kg

Technical specifications
- Mains power: Range 220 V–240 V, 50-60 Hz
- Number of bulbs: 2
- Wattage bulb included: 7.5 W
- Maximum wattage replacement bulb: 7.5 W
- Number of bulbs 2: 6
- Wattage bulb included 2: 2.5 W
- Maximum wattage replacement bulb 2: 2.5 W
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: I - earthed

Service
- Warranty: 2 year(s)

Packaging dimensions and weight
- Height: 56.4 cm
- Length: 33.5 cm
- Width: 22.6 cm
- Weight: 3.785 kg

Miscellaneous
- Especially designed for: Living Room and Bedroom
- Style: Concept
- Type: Suspension light

Issue date 2014-05-20

Version: 3.0.1

12 NC: 9150 024 73201
EAN: 87 17943 74336 0
