- LED technology for brillinat colours and high contrast
- SmartEngine with LED technology

Wireless connection

- Set up an own network to connect other devices
- Connect wireless with other devices within a network

Ultra portable

- Play videos directly from your SD card or USB stick
- Internal battery for playtime up to 2 hours

Go online

- Share web content like YouTube videos

Features

120" (305cm) image size

Enjoy the biggest mobile screen you ever had and share your HD media content wherever you want. With your PicoPix you are carrying a personal cinema in your pocket.

Personal WiFi Hotspot

Whenever there is no WiFi network available, the PicoPix will become a Personal Hotspot and set up its own network for all DLNA compatible devices, enabling you to share content on a large screen

Integrated Media player

The integrated MP4 player supports all common video and audio formats.This makes the PicoPix pocket projector a standalone device, retrieving its content

PHILIPS

from the internal 2 GB memory, USB stick or one of various different types of memory cards.

Internal battery

The PicoPix comes with a compact built-in rechargeable battery for long-lasting power. Up to 2 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. This makes the PicoPix your perfect pocket companion.

LED-Technology

Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix pocket projector uses high quality LED technology to project your pictures and videos in brillinat colours and breathtaking contrast.

WiFi function

With WiFi you can connect your PicoPix 3610 to DLNA compatible devices on your home network, and project your content from these devices.
