Highlights

3600 Joules
Prevent thousands of pounds of damage to your electronic devices.

Protected combo network/phone
Sidactors are used for protecting the network or phone lines. These connectors accommodate either an RJ45 or an RJ11 cord. They route either line through the surge protector to guard against spikes and surges that may occur in the network or phone lines.

Protected dual coax connection
Connectors route the coaxial signal through the surge protector to protect against surges and spikes.

Power Blocker
Automatically shuts down power to the connected devices.

€300,000 equipment warranty
Protects your connected equipment for the life of the product.

8 outlets
Converts one outlet into eight outlets, allowing you to plug in multiple devices from a single AC outlet.

3 m power cord
Provides power to the unit which can be 3 m from the AC outlet.

Cord Management
A cord management device that allows the cable/ cords to be routed in the same direction for a more organised appearance

automatic child safety sockets
Helps keep children safe from accidental shock.

Protection indicators
LED lights let you know if your surge protector is functioning properly.
