Datasheet

HP Reverb Virtual Reality Headset

Lifelike VR like never before

Experience heart-pounding immersion right at home. With exceptional resolution, a comfortable design, and built-in audio – this VR experience is so realistic, you'll forget it's virtual.

Incredibly lifelike
Experience exceptional image clarity with dual 2160 x 2160 LCD panels (one per eye)—complete with full RGB stripe—and an expansive 114° field of view. Six degrees of freedom let you move up, down, back, forth, and side-to-side naturally.

More comfort, less weight.
With a lightweight (433g), compact design and minimal torque on the face you'll forget you're even wearing it. A soft elastic strap allows for easy on/off, while the detachable, machine-washable face mask keeps your headset clean.

Seamless setup
Setup is fast and simple with dual plug-ins to a compatible PC. Included motion controllers are Bluetooth enabled, and come paired to the headset right out of the box.

Integrated audio
Minimize cords with built-in, high-quality headphones. Prefer your own? Easily remove the built-ins and plug-in to the 3.5mm jack. An integrated microphone lets you easily chat with teammates and control your PC via Cortana.
