PrecisionPerfect - Quick way to remove facial hair

Remove facial hair. Anywhere. Any time.

Found a hair on your face and want to get rid of it immediately? Philips Precision Trimmer is your instant face hair removal solution. Small and compact enough to take it everywhere you want. It will keep your face smooth and hair free.

Precise. Gives you the control.
- Perfectly shaped eyebrows with the precision attachment.

Safe
- Easy and safe facial hair removal.

Ease of use
- Comes with a delicate cleaning brush for optimal hygiene.
- Takes AAA batteries for use any time, anywhere.
- Lightweight and compact for complete control.

Highlights

Standard trimming head

Easy and safe facial hair removal with the standard trimming head for soft and silky skin. The Philips Precision Trimmer is a trimmer rather than a blade. This means it can be used for gentle, pain-free removal of all types of unwanted facial hair. With the Philips Precision Trimmer no lip, brow or chin hair will stand between you and a perfectly smooth face.

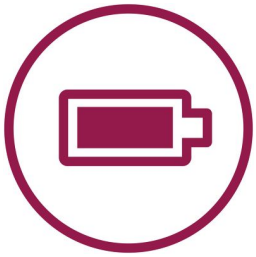
Precision trimming attachment

Precise eyebrow shaping. Allows you to control how much of the trimmer to use on your face so you don't need to worry about removing more than a single hair.

Cleaning brush

Cleaning is remarkably easy! Comes with a delicate cleaning brush for optimal hygiene. Keep the device dry to protect it for longer use.

Battery



It works on AAA batteries, so you can use it any time, anywhere!

Compact and Feminine design

The Philips PrecisionPerfect Trimmer is compact, lightweight and easy to use, providing you with complete shaping and hair removal control wherever you are. It fits in your bag or purse and comes in a fashionable colour with an attractive chrome ring and button design. It's great for on-the-go touch-ups and even comes with a cap to protect the delicate trimming head. To start using, simply slide the on/off switch, place the trimming head onto the hair you want to remove and glide it against the direction of your hair growth. For best results, keep skin taut while trimming.
