PHILIPS

Pediatric compressor nebulizer system

Home use table-top device Treatment in 6-8 minutes*, *Using a 2.5ml Salbutamol dose, Designed for children

HH1335/00

Highlights

Fast, effective treatment

Our Sidestream nebulizer is specially designed to keep your childs treatment times as short as possible. As Sami the Seal pushes air through the tube, additional air is drawn in through the top of the nebulizer to create a fast flow of aerosol medication for your child to inhale. Treatments can take as little as 6 minutes*

Making therapy fun

The Sami the Seal compressor nebulizer system combines power and reliability with a child-friendly design and cute character to provide you and your child with a more user- friendly treatment experience. The compressor is bottom-weighted to provide extra stability.

Proven nebulizer technology

Consistent delivery of high quality aerosol therapy. SideStream is designed to withstand frequent, repeated use and is able to efficiently deliver your child's nebulizer medication until it is time for replacement.

Tucker pediatric mask

Our cute Tucker the Turtle character mask is made of a soft, flexible material that contours to your child's face for comfort and fit. It also incorporates a vent design that helps to direct medication away from your childs eyes.

Versatility

Sami the Seal is designed to use with most aerosol medications prescribed for common respiratory diseases.
