PHILIPS

Philips High-speed vacuum blender

HR3756/00

- Avance
- Vacuum technology
- 1400 W
- 35,000 RPM

Keep smoothies fresher throughout the day*

Blending reinvented – with vacuum

- Vacuum technology
- Preset program for vacuum and smoothie blending
- 2 virtually unbreakable Tritan tumbler jars
- Manual mode with variable speed
- Powerful 1400 W motor for smoother blends
- Advanced ProBlend 6 3D blending technology
- Up to 35,000 rpm
- Dishwasher-safe blender jar
- Detachable blades for easy rinsing
- Single press for preset programs
- 2 year worldwide warranty

*Compared to blending without the use of vacuum function in Philips HR3752. Test conducted by an independent laboratory in Nov/Dec 2017.

Highlights

Vacuum technology

Vacuum technology sucks the oxygen out of the jar before blending. Results are visible in the final blend: fewer bubbles, less foam, less juice separation. The smoothie stays fresh for longer.

Program setting

Choose from 3 programs: vacuum smoothie, pulse and ice crushing. Make any smoothie you like.

Tritan tumbler jars

Everyone loves a good smoothie! Our 2 litre Tritan copolyester jar has a working capacity of 1.8 litres to make smoothies for the whole family.

Choose your blending speed

From gentle blending for soft fruits, to a burst of power for harder fruit and vegetables—it's up to you with our variable manual speed options.

More power for smoother blends

Finer blending of fruit and vegetables, thanks to our 1400 W motor.

Unlocks more nutrients

We developed our ProBlend 6 3D technology to ensure that all of the ingredients in your smoothie are finely blended—so the nutrients in fruit, vegetables and nuts are unlocked from the cell structure and easily absorbed by your body.

Up to 35,000 RPM

35,000 RPM for excellent blending and even healthier smoothies

Dishwasher safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe—except for the blade unit, which can be easily rinsed clean. The base can be wiped clean if needed.

Detachable blender blades

To clean the blender blades, simply detach them from the blender jar and rinse. The blades cannot be cleaned in the dishwasher, to preserve their sharpness.

Specifications

Sustainability

Packaging: > 90% recycled materials
User manual: 100% recycled paper

General specifications

Product features: Automatic shut-off, Cord storage, Dishwasher safe, Non-slip feet, On/off switch, Pulse, Variable speed, Removable lid
