PHILIPS

Bluetooth stereo headset
On-ear White

SHB9100WT/00

Highlights

BT HSP/HFP compliant

Bluetooth is a cable replacement technology. As it is a global standard, Bluetooth devices from different manufacturers can interoperate using shared Bluetooth profiles. HSP (Headset Profile) and HFP (Hands-free Profile) are the profiles required for typical Bluetooth headset operations. If your mobile phone is compliant with HSP or HFP, this headset will work perfectly with it.

Comfortable for prolonged use

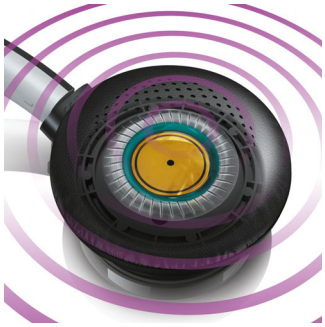

The deluxe super soft ear cushions enable you to wear your headphones for as long as you like without discomfort.

Deluxe FloatingCushions

The newly innovated deluxe FloatingCushions design of these Philips headphones allows for full multi-directional auto-adjustment of the cushions, without the need for the traditional C-hinge construction. This results in a seamless design, which ensures optimum stability by applying an evenly distributed pressure force onto the user's head and ears, therefore creating a strong, ownable story in terms of comfort and fit.

Digital enhancement

Booming & superior bass from high-performance drivers and digital enhancement.

Slim headband design

Integrated slim headband design ensures slimness

Smart controls

Easily switch between music and calls with smart controls (volume, track and toggle control)

Wired or wireless

Use as a Bluetooth wireless headphone or listen via 3.5-mm plug-in option.
