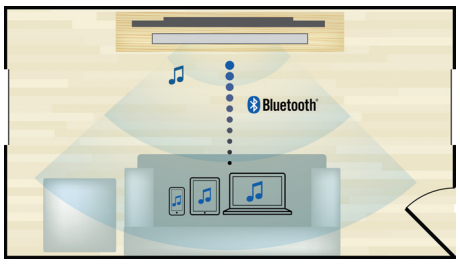
Highlights

Smart cable management
Smart cable management for organised cables across your room

MTM speakers
Midwoofer-tweeter-midwoofer (MTM) configuration in all main and satellite speakers allow loud and truly reproduced sound regardless of listening position. You can always enjoy crystal clear sound without distortion no matter where you are sitting.

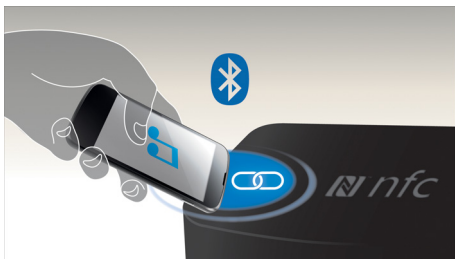
Subwoofer base reflector
Dome-shaped base reflector enhances a stronger and deeper base by radiating sound smoothly in all directions. The design also prevents the damping effect from occurring when the subwoofer is placed on carpet.

Bluetooth wireless streaming



Bluetooth wireless music streaming from your music devices

NFC technology



Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing and begin streaming music.

HDMI ARC
