NGS WIRELESS MOUSE EVO MUTE RED

WIRELESS OPTICAL MOUSE WITH SILENT BUTTONS. RED COLOR

This device incorporates a 2.4 GHz radio frequency **wireless** technology and advanced optical sensor for accurate control. It can communicate with the computer from a distance of 10 meters.

Reduces key-click sounds with at least 95%, especially designed for users who work long hours and require maximum low noise. Prevents irritating noise and task concentration is enhanced to the maximum.

It features an **ergonomic thumbrest** for comfortable grip **and 5 buttons** to make everything you do on your laptop easier, from surfing the Web to navigating your Social Networks with precision clicking, pointing and dragging (Forward/Backward/DPIs) and a **scroll** wheel that gives you the precision you need when navigating lists, slides and images.

Thanks to its optical sensor and built-in **DPI switch button**, you can switch DPI between **800/1600** and choose the mouse speed.

This mouse comes with a **Nano receiver** which can be placed under the mouse, or it can remain connected to the laptop without risk of fall or loss. **"Plug and Play"** installation, you just have to plug it in and start working.

Finally, NGS Evo Mute has been conveniently designed for **right-handed** users.

Its **medium-sized** is perfect for both desktop and notebooks and its very comfortable to transport.
