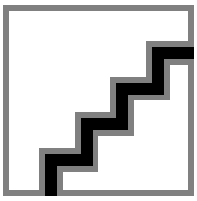
PHILIPS

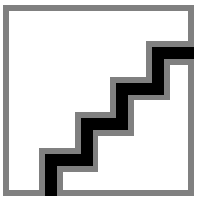
Features

ProMix blending technology



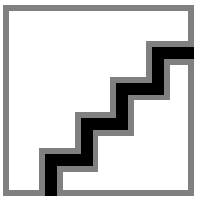
Developed together with the prestigious Stutgart University, Philips ProMix is a unique, advanced technology that uses a specific triangular shape to create optimal food flow and maximum performance for faster and more consistent blending.

Powerful 700 W motor



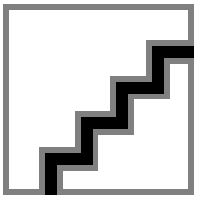
The Philips handblender with powerful and reliable motor of 700 Watt can blend and almost any ingredient and delivers smooth results. With this motor power this hand blender can drive also a large variety of accessoires.

Foodprocessor accessory



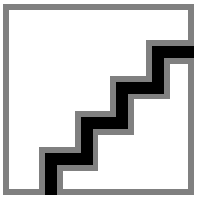
With the 1,5L foodprocessor accessory of the Philips handblender you can chop slice and shred ingredients like vegetables, herbs, meat, cheese.

Whisk accessory



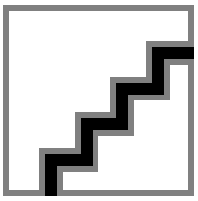
Single whisk accessory for Philips hand blender for whipping cream, mayonnaise, pan cake batter and more. Makes your hand blender mutlifuctional and versatile.

ProMix Beaker 1L



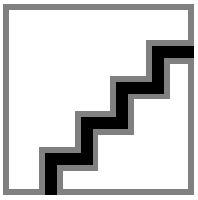
A 1L triangular beaker is included with the handblender. The beaker of the handblender comes with a handy spout and measures. The unique triangular shape feature of the beaker offers an easy grip and creates a vortex that pulls down the ingredients towards the bottom of the beaker were the ProMix blending bar cage is, for optimal blending, whisking and mixing.

Anti-splash blade guard



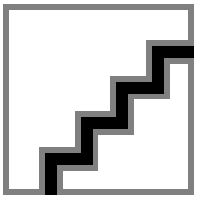
The special wave shape in the bottom part of the handblender blending bar garantees no splashes or mess while you blend.

Ergonomic rubber grip



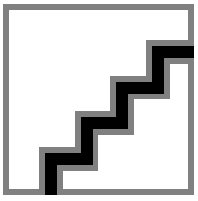
Ergonomic soft touch handgrip, designed to give a secure and safe grip which allows for easy holding and maneuvering of the hand blender during use.

Single-Button Release Systen



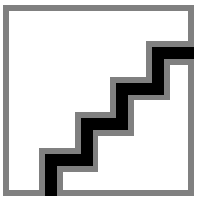
Simple, quick and easy attachment and detachment of the blending bar and all the accessories with the use of one finger.

SpeedTouch with Turbo boost



Intuitive variable speed setting and turbo boost in one button that gives you more power as you squeeze. Start slowly to prevent splashing and smoothly speed up till you reach the required speed for each application and every type of ingredient. Prepare all your favorite recipes at the touch of a button.

Stainless steel knife



This Philips hand blender has a hardned stainless steel blending knife. The shape of the knife is optimized to deliver with the ProMix triangular handblender blending bar the best blending results. It is food safe and will not corrode.
