The best gliding soleplate

For Philips dry irons

Affinia is the new Philips dry iron with DynaGlide soleplate, which glides easily on the garments. The soleplate with the slim tip, comfortable handle with texturing and elevated temperature control make the iron easy to use.

Benefits

Easy gliding on all fabrics
- DynaGlide soleplate for easy gliding on all garments

Comfortable ironing
- Slim tip soleplate reaches easily in tricky areas
- Button groove speeds up ironing along buttons and seams
- Comfortable handle with texturing for easy grip
- Cord winder for easy cord storage

Full control
- Easy temperature control
- Temperature light indicates when the iron is hot enough

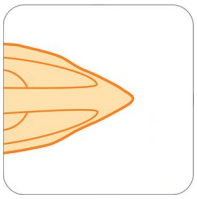
PHILIPS

Features

DynaGlide soleplate

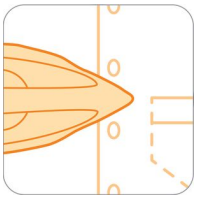
DynaGlide coating is one of the best Philips soleplate coatings. It is much more scratch resistant and it glides better than an aluminum, non-stick or ceramic soleplate.

Slim tip soleplate



The slim tip of the soleplate allows to reach easily in the most tricky areas, such as between the buttons, when making pleats and in the corners.

Button groove



Button groove speeds up ironing along buttons and seams.

Comfortable handle

The texturing on the handle of the iron ensures a comfortable and ergonomic grip, so that your hand fits well and does not slip during ironing.

Easy storage

The cord can be wrapped around the heel rest, so that the appliance is easy to store.

Easy temperature control

An elevated temperature control is easy to operate and precise. You will always have the right temperature for your garment.

Temperature light-indicator

Temperature light goes on when the iron is heating up and goes off when the solepalte temperature has reached the set level.

Specifications

[field not found 'disclaimer_text']

Full control

Easy temperature control	Yes
